

Premium mill for wet fine grinding and dispersion

 Ashizawa

**NEW**

Wet bead mill

# Mugen Flow<sup>®</sup>

## High quality fine grinding and dispersion achieved by higher-grade refinement technology

Proven record of  
**30,000 mPa·s**

High viscosity slurry compatible

5x higher than  
conventional mills

Large flow rate operation possible

Minimum bead diameter:  
**0.1 mm**

Small beads compatible

KEY POINT

Well polished superb  
beads separation  
performance

**MGF2**

Particle technology for co-creation of new possibilities
